

Twilight switch incl. timer TTS PRO

Twilight switch and timer in one.

- Modern design harmonises with any architecture
- Twilight switch and timer combined in one product, for brightness and time-dependent switching
- Installation saves even more time, as only one product needs to be installed
- Simple commissioning via the free Steinel Connect app
- Wired integration of existing luminaires and wireless integration of Bluetooth Mesh products possible
- Permanently functioning light management even in the event of a power failure thanks to Real Time Clock and 7-day battery storage
- Functions as a timer in the Connected Lighting System with automatic summer and winter time changeover

Timer points via Nightmatic mode or with even more flexible schedules can be set
